ABOUT THE COMPANY

Jumsko Services T/a Jumsko Security Services has been in existence since 2014.

Jumsko Security Services is a BBBEE Level 1 company who has served a wide range of clients from virtually every industry, including multinational businesses, and clients from the mining and hospitality industries. Jumsko Security Services Officers are meticulously screened and well trained. They provide services to various private companies and public entities. These hand-picked officers are trained in basic security functions, professional attitude and appearance, public relations and crisis management, as well as first aid. Jumsko Security Services maintains a high client retention rate that is due to the ability to understand, interpret and exceed client expectations in ensuring the placement of competent and committed officers and supervisors.

Jumsko Security Services Clients benefit from the broad and diversified experience of our personnel, and our network of contacts in the national and international law enforcement community. Jumsko Security Services offers a wide range of services within our country.

MISSION STATEMENT

It is our mission to make sure that clients requirement meets the Company standards.

VISION STATEMENT

Jumsko Security Services aims to provide unique value adding product to its clients in a way that brings meaningful contribution, together building a safety & security for sustainable growth & development.

COMPANY SERVICES

Jumsko Security Services Officers are highly regarded for our professionalism. We provide security services for corporations, private sector, residential home functions and events nationwide.

Our personnel are highly competent dedicated officers. Their expertise ranges from basic security functions to crisis management and emergency response. They are also well-versed in emergency medical procedures and required services.

ACCREDITATION

Jumsko Security Services is PSIRA accredited as a Security Provider.

STATIC GUARDING

Nationwide Guarding Services

At Jumsco Security Services we are serious about the services that we offer. Services are never proposed and or sold to clients that do not suit their exact requirements, nor will officers, who are not suited to certain requirements, be placed on an assignment. The strength of each individual is maximized by selectively placing him on projects where he is best suited. Our guards and supervisors are of the highest caliber and the ongoing training program ensures that they can relate directly to clients needs, enabling them to quickly adapt to situations, analyze risks and make effective strategic decisions that will avoid risks developing into problems.

24/7 CONTROL CENTRE MONITORING

Monitoring and Reporting

Our control centre provides real time monitoring of our security officers, complete with provision of an audit trail for our clients via a Guard monitoring system. Communication between our clients, management, Security Officers and Tactical Response Officers are of utmost importance, not only in case of emergency but at all times, to ensure good service delivery, quick and effective response in case of an emergency. Security officers also report regularly via radios and mobile systems to the control room that ensures constant communication between all the different units.

Our managers and supervisors also carry out physical site visits throughout their shift. The Control centre is responsible for dispatching our Tactical Response teams to alerts from alarms and sensors (*Credential Theft*). Advanced vehicle tracking ensures monitoring of our Tactical Response Teams, quality, patrolling and the response time. Again, a full audit trail is provided. Routine remote CCTV surveillance and response to motion- activation cameras are also carried out from the centre, triggering dispatch of a Tactical Response team or visual verification, enabling us to ensure the appropriate alert to the police or other emergency services.

TACTICAL RESPONSE

Tactical Support Unit Responding to Critical Situations

Jumsko Security Services has many years of experience in security co-ordination with tactical support teams throughout South Africa. Gone are the days where normal security guards, one armed reaction officer per vehicle not trained in armed reaction, respond to an alarm, panic alarm, phone call or assist in case of an emergency. Our capabilities include contingency planning, intelligence gathering and medical assistance.

Agents Professionally Trained

The tactical support unit members for Jumsko Security Services are carefully recruited, selected and trained in a variety of safety and security techniques, including counter surveillance, and are in constant contact with our 24- hour communication centre for security alerts and deployment of additional support.

We employ highly trained specialists and will provide the "on ground" manpower to protect your assets and people. Training for our tactical support unit members includes instruction in tactical training, fire prevention, first aid and physical fitness.

TECHNICAL SUPPORT SERVICES

Technical Support Services

Providing Residential/business alarm systems form the core of your home/building security. Your alarm system can be set up to accommodate multiple zones to ensure that in the event of a burglary, our control room will immediately be able to identify the exact rooms and outdoor areas of your home that intruders have breached. Several fixed and remote panic buttons can be installed, so that in case of an emergency you can discreetly alert us to respond to the scene straight-away. Every area needs to be professionally assessed to ensure vulnerable points are adequately secured, from the driveway gates, which may need advanced security, to offices, storerooms, production areas, as well as the roof which must not be neglected as it is a fairly common point of entry for burglars.

A tailor-made service of the highest standard. It is highly recommended to have several layers of security to effectively protect yourself and your family. These layers will buy time as an early warning system will alert you of any unwanted intruders. This will give you adequate time to secure your family whilst armed response is on their way.

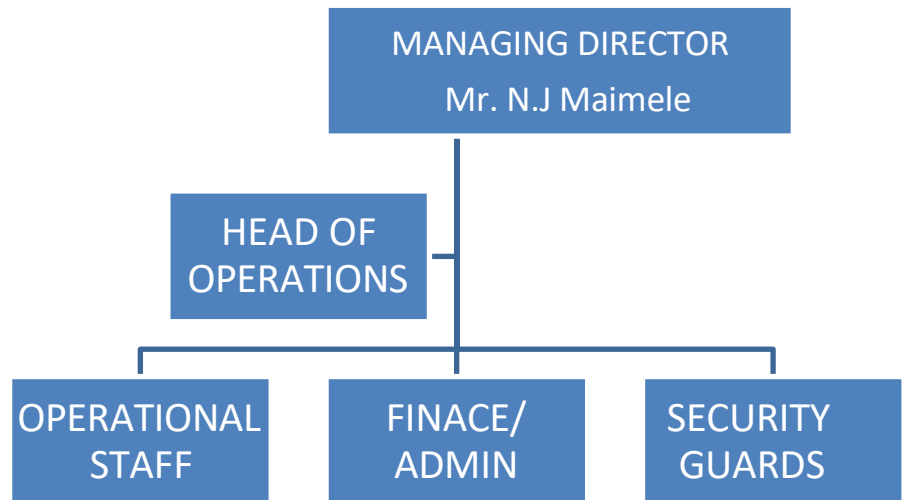

TRAININGS
